要約文： 下記の英文を読んで英語で要約してみましょう。

When reading a book, many people like to read books printed on paper. Others prefer to read on devices like tablets and smartphones. There is another choice, too. Some people like to listen to books, which are known as audiobooks.

Why do people choose audiobooks? Some people like to be able to do other things while listening to an audiobook, such as exercising at the gym. Other people like them because they do not need to read them, so they can rest their eyes for a while.

On the other hand, audiobooks can be expensive because they have to be recorded, not printed like normal books. Also, if people get distracted, for example, by sudden noise, they may lose track of their position in their book. This can be a problem because it sometimes takes time to locate the part they want to replay. （英検２級 ７日間完成予想問題より）

Question: ↑上記の英文を読んで英語で要約してみましょう。
要約とはまとめて短くすることです。
